We appreciate your visit on our stand D82 - Hall 13 D

In the latest edition of our **newsletter (January 2015)** we discussed several machine for sorting pallets developed by Cekamon Saws BV. Below you will find some examples of sorting lines in which these machines are integrated.

Sorting line for one kind of pallets

- Sorting pallets fast and with a minimum of physical strain.
- No longer walking around with heavy pallets (10-30 Kg per pallet)

For information or an offer please [click here](#)

Pallet tipper

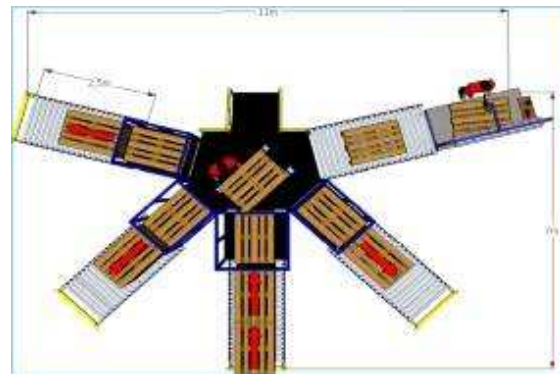

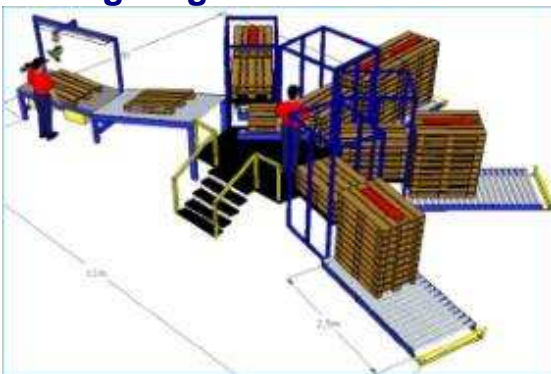

Conveyer belt

Pallet stacker

Sorting stage

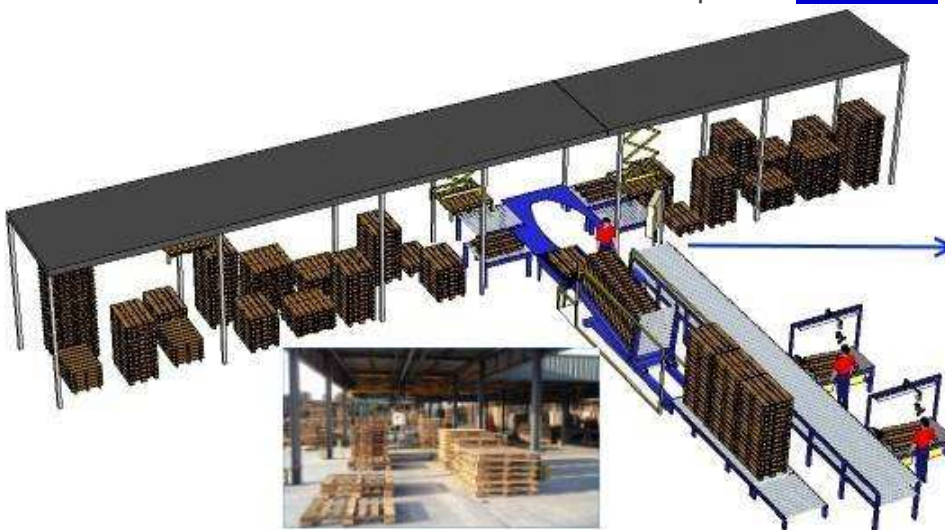

For information or an offer please [click here](#)

Sorting line for mixed pallets

- o All standard pallets stacked automatically (> 40 different kinds)
- o Registration of the sorted/repaired pallets
