Newsletter June 2015 - Year 5 - Edition 4

### Cekamon PalletSaw type W again rewarded with CE certificate

Already since the first PalletSaw in 1993 **Cekamon Saws BV** delivered this machine with a CE-Certificate of a Notified-Body. Recently the Cekamon PalletSaw earned this Certificate again for a period of **5 years**. This means that all customers of Cekamon Saws BV can use there PalletSaw like it was and like it should be. New on the latest PalletSaw W is the connection for dust extraction on the yellow cap of the machine, one more reason to dismantle pallets with the PalletSaw instead of the Reciprocating machine.

### LIGNA 2015 Hannover

We as **Cekamon Saws BV** experienced the LIGNA 2015 in Hannover as successful. Not only a lot of our known relations visited our stand but we also welcomed a lot of new relations. This all resulted in a lot of quotations. For those who weren't able to visit the LIGNA this newsletter in which you will find the highlights of our stand, our exhibition video and the interests of those who visited our stand.

### Stand Cekamon Saws

Since it is practical impossible to show all products of our complete range in life, we choose at the LIGNA 2015 for a small but functional stand. On a big interactive screen we showed our exhibition video. Of course there was also enough space for counselling and a quit discussing with relations and interested parties.

### **Cekamon LIGNA exhibition video**

Our presentation video at the LIGNA 205 in Hannover was very successful. For everyone how was not able to visit us at our stand and for everyone how wants to view the video again. Please click below to start the video

### **Highlights of the LIGNA 2015**

Beside the exhibition video there was also a lot of interest for the possibilities on pallet repair, starting from simple Reciprocating machine up until complete repair lines. A few highlight are mentioned below

**BoardRemover**

With just one push on the button removing the top or bottom deck board

**PalletPress**

One employee removes the top or bottom deck board or a block, 2 other employees repair the pallet.

**PalletSaw**

Excellent suited for removing broken parts or to dismantle complete.

All the above mentioned machines can be placed in a **Cekamon** repair line. For more information [click here](#)

## Sorting systems:

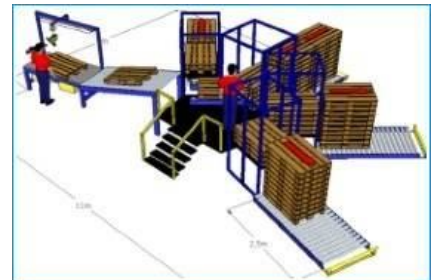

Also there was a lot of interest for the wide range of sorting solutions of **Cekamon Saws BV**. Please [click here](#) for more information.

**Pallet tipper**

**Pallet stacker**

**Sorting stage**

All the above mentioned machines can be placed in a **Cekamon** sorting line. For more information [click here](#)
