**The largest exhibition in the world for wood and pallet industries**

**Would you like to visit us? Please [click here](#) to order free tickets**

**We appreciate your visit on our stand D82 - Hall 13 D**

### **BoardRemover**

**Removing lead boards (upper and lower) by pushing one button and replacing the board immediately at the workbench**

- One employee finishes the pallets completely by himself
- Faster then working with reciprocating machines

For information or an offer please [click here](#)

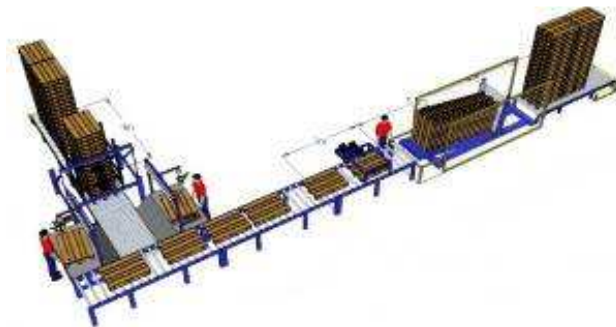

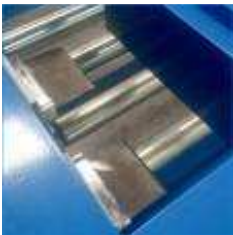

## PalletPress

One employee removes the broken boards or blocks while the second employee finishes the repair.

- Works faster then working with reciprocating machines
- Less physical strain due rolling the pallets trough the process

For information or an offer please [click here](#)

## Wooden pallets have a lesser environmental impact

Ordered by the EPV (the trade association for manufacturers, traders and repairers of wooden packing material) the independent researcher NIBE compared the Life Cycle Analysis (LCA) of wooden pallets and Plastic (HDPE) pallets. This research shows that wooden pallets have up to 25% lesser environmental impact then Plastic Pallets, just like Houtwereld (a Dutch magazine for wood working industries) recently pronounced in one of there articles.
