

## Save on useless pallets

Newsletter November 2016 Edition 6 - Nr. 5

Since the prices of oil decreased massive, the prices of wood used for Bio Fuel (Pellets) is also decreasing. Companies that, up until now, bought useless pallets for the production of Pellets are currently paying much less or nothing for useless Pallets. Sometimes they even charge a fee for processing these pallets

Maybe you have thoughts about (or did you already consider) the possibility of dismantling the pallets yourself. The wood regained with dismantling can be used at repairing pallets or at producing new pallets (out of regained wood). This way you can save on the purchase of wood and on disposal of useless pallets.

For more information on how to dismantle efficiently, please click on the link or call us.

### Dismantle efficiently with the Cekamon PalletSaw W

- For complete dismantle
- For taking out broken parts
- Already more then 500 sold
- Machines build in 1995 are stil running.
