

December 2014 - Year 4 - Nr. 8

Cekamon Saws's highlights of 2014

2014 turned out to be a successful year for Cekamon Saws BV. Due to new developments realized we welcomed several new customers.

Please find below one more time the developments of 2014.

As from now you can also pull your pallets through the PalletSaw W

Unlike other machines in the market it is **from now on possible to pull your pallet through the Cekamon PalletSaw W**. In other words the **choice is yours**. Do you prefer to push the pallets through the PalletSaw W (as you are used to do), no problem. **BUT do you prefer to pull the pallets through the PalletSaw W** (so the loose pallet part will end up at the operator), this is also no problem. Our saw guide systems is build in such a way that changing from pushing to pulling (or the other way around) is just a matter of small adjustment. For information and quotation. [Click here](#)

Vertical transfer of prepared pallets to the work benches in a compact aligning

Cekamon developed a **vertical** transfer.

With this solution you are able to transfer you pallets (after broken parts are taken out) in a vertical position to the workbenches were they are repaired. Your employee slides the pallets after repair on a chain conveyor were it will be transferred to a pallet stacker. This solution allows you to build a repair line on limited space requirements. But maybe even more important is de fact that your employees doesn't need to lift and/or walk around the pallets anymore. For information and quotation. [Click here](#)

The new Cekamon Expert Nailing table XL

The Cekamon Expert Nailing Table XL makes it possible to produce long pallets in an easy way. Cekamon built **Expert Nailing tables XL** for a few of its customers. These customers are now able to produce longer pallets (2 – 3 Meters or any other length) with 12 or even 15 blocks in a more efficient way. For information and quotation. [Click here](#)

Board chamfer machine

Easy chamfer your board with the Cekamon Board chamfer machine. Cekamon Saws BV offers you a board chafer machine cheaper then the most common machines in the market. Convince yourself and ask for more information or a quote. [Click here](#)

Leg machine

To be able to produce your own pallet legs, Cekamon Saws BV developed a leg machine. With this machine you are able to produce your desired size of legs fast en easy. If a leg machine is to complicated (i.e. you only use 1 size of legs) we can deliver an iron template. This

template offers the possibility to produce your legs by hand. Such a template is easy to use while repairing pallets. For information and quotation. [Click here](#)

The updated PalletSaw

Extraction point for smoke and dust

The updated **PalletSaw** is equipped with several points for extracting smoke, shavings and dust. As a result, you will not only have savings on your expenses but also lesser smoke and dust. The dust extraction point can be connected to either a central dust extraction system or a stand alone unit which **Cekamon Saws** also offers in its product range. Wearing facemasks is with Cekamon Saws from now on needless. For information and quotation. [Click here](#)

Extraction point for smoke, dust and sawdust

The staff off Cekamon Saws BV thanks you for your trust and wishes you a Merry Christmas and a Happy and successful 2015
