## Cekamon Saws Newsletter

In this newsletter you can read our latest news. With our Sort- and Repair line you can increase your production and you reduce the physical strain from your employees. Log on to our website [www.cekamonsaws.nl](http://www.cekamonsaws.nl) and see what we can do for you.

#### In this newsletter:

- >> For Sale: OMEV automatic nailing machine
- >> Band Saws
- >> Campaign: 'Keep it save'
- >> Innovative Stacker
- >> Compensation
- >> Customized solution

### Customized solution for Westfalen

Paletten Logistik Westfalen from Geseke (Germany) asked Cekamon Saws to make a customized solution for the repair, sort and disassembly of pallets. Pallets were sorted by two employees and repaired by two employees.

We installed a sort and repair line for three employees. That saves one employee and require fewer forklift operations.

In this way the line fits completely in the process of Paletten Logistik Westfalen.

### Compensation?

Holland, 18 juli 2011

A 59-year-old trucker from Roosendaal (Holland) gets a compensation of 30,000 euros. The trucker with back pain was disabled to do his work. The symptoms were caused by years of back strain by vibration. The chair in the truck was not built for noise and vibration. [Click here to read this article \(in Dutch\).](#)

Have you thought about your working conditions? Ask yourself the question whether you could have prevented this.

## Innovative Stacker

A stacker wich can send pallets in three directions. That's how our new stacker works. The prototype is ready now.

The benefits:

- Import and Export under 90 and 180 degrees
- Set size pallets easy
- Cheaper than conventional/older model
- Optimum use of space
- Also destacker
- Build a pallet sorting line easily by placing stackers after each other
- Lower height gives savings in the supply and drainage jobs.

We can tell you more about this stacker. Please contact us.

## Dutch campaign, 'Keep it safe'

In 2009 the Dutch Labour Inspectorate carried out a study in the wood sector. They visited a total of more than 650 companies. In seven out of ten companies, inspectors found one or more infringements. Machinery and tools were misused and safety regulations are not followed.

The Dutch Union of Wood and Furniture responds to this research with the campaign, 'Keep it safe'. The campaign will run for one and a half year, from early summer 2011 till winter 2013.

Cekamon Saws knows how important it is to work safely. Curious about the possibilities for your company? Please contact one of our employees.

## Band saws for al your machines

We sell band saws for all types of machines. Need advice? Contact us.
